

Arlington United & C5T PROSPECT Partner to Provide College Recruiting Services for United Players

C5T PROSPECT will be United's Partner for Players Seeking to Play Ball in College and Beyond

Arlington United Baseball is proud to announce a strategic partnership with **C5T PROSPECT**, a premier baseball recruiting advisory service dedicated to helping high school athletes and families navigate the college recruiting process with confidence, clarity, and purpose.

This partnership, which comes at a moment when the recruiting landscape is rapidly shifting, represents a meaningful step in providing Arlington United families and players with the education, structure, tools, and guidance needed to reach their highest level of performance and opportunity.

C5T PROSPECT is led by Eric Crozier, a former Major League Baseball player and current Head Baseball Coach at Chantilly High School. Eric's perspective, grounded in firsthand knowledge of what it takes to compete at the highest levels, shapes C5T PROSPECT's player-first approach to recruiting.

This partnership ensures that every United athlete and family service receives access to the education and guidance needed to make decisions about playing at the next level, aligned with academic and athletic goals.

Supporting Arlington United Players On their Baseball Journeys

C5T PROSPECT brings a mentorship-driven approach to recruiting and player advancement. Its advisory model bridges the gap between talent and opportunity by helping players build strong recruiting profiles, improve visibility, develop the right game plan for showcase and tournament opportunities, and communicate more effectively with college coaches.

Together, Arlington United and C5T PROSPECT are building a pathway that will help families make informed decisions and maximize recruiting outcomes.

Key Pillars of the Arlington United + C5T PROSPECT Partnership

1) Player & Family Education

The recruiting landscape has rapidly changed. Arlington United families will gain access to education that will demystify the recruiting process. Players and parents will be better equipped to understand recruiting timelines, academic standards, expectations at each collegiate level, and what “being recruitable” truly looks like.

2) Analysis, Evaluation, Metrics & Feedback

Arlington United and C5T PROSPECT will support athletes using structured evaluation and performance feedback tools, including a PBR showcase this fall. This includes data-driven assessments, measurable player insights, and objective guidance to identify strengths and improvement areas so players and families can make informed decisions.

3) Program Design & Tournament/Event Roadmaps

This partnership will provide Arlington United athletes with an intentional roadmap, helping align tournament selection, showcase participation, and player exposure opportunities aligned to each team’s profile. The objective: put players in the best environment to be seen by the right programs at the right stage of development.

4) Last-Mile Recruiting Support

Beyond playing and performance, recruiting requires strategy, communication, and execution. This partnership ensures access to C5T PROSPECT’s recruiting services, helping athletes and families build complete recruiting plans, develop effective outreach

strategies, and present strong materials—including recruiting profiles and video guidance—so that opportunities are pursued and captured.

Why This Matters

This partnership ensures Arlington United athletes will play with purpose, supported by an organization and resources that brings recruiting expertise, trusted college connections, and real-world experience across all collegiate levels.

Arlington United will share additional details in the coming days regarding educational sessions, and how families can begin utilizing the resources available through this partnership.
